

# Case Study Pistachios in the Park

**Aysin Djemil, Pistachios in the Park franchisor commented on the new platform:**

“TouchOffice Web is an essential tool for both myself and my franchisees. Business decisions can be made easily, based on the accurate understanding of the information provided.

I can access the information and CCTV surveillance from my smartphone wherever I am.”

The leading UK based developer and distributor of EPOS software and hardware

# TOUCH OFFICEWEB

## TouchOfficeWeb Reach new heights with TouchOffice Web

TouchOffice Web is a Cloud-based version of ICRTouch's popular TouchOffice software. Any time, anywhere in the world, any number of users have access to live and archive sales data and video footage, via a computer, tablet, smartphone and more. TouchOffice Web connects with ICRTouch's flagship reliable and proven TouchPoint till software. TouchPoint has been developed over 15 years and (thanks to annual software upgrades) it remains cutting edge.

ICRTouch has over 30 years experience in developing and supplying EPOS systems and we've sold 40,000 software licences.

### TouchOfficeWeb is right for YOUR business...

TouchOffice Web is a brilliant tool for any size of business, from a single till, to 10 tills in three branches, to 10,000 tills in 3000 branches... get the idea? For larger businesses, information can be collated and displayed at either branch or head office level.

TouchOffice Web allows you to remotely view live sales and employee data. Plus, it's not all about the now. TouchOffice Web can access and show historic data too.

### No nasty surprises with TouchOffice Web...

Using key performance indicators, TouchOffice Web alerts you to potential transaction fraud or mis-management. It highlights unexpected changes and other high risk transactions. Tell TouchOffice Web what the boundaries are it will patrol them for you. It even features a traffic light signal system for a quick visual warning.

The drill-down feature gives you fast access to a specific transaction. Broaden or refine to identify trends or patterns.

From there, it's just 3 clicks of a mouse to find your video evidence of the specific transaction.

Easily extract financial reports and export them into PDF, Excel and Word.

### Safety first...

Integrate in-house CCTV with TouchOffice Web and ICRTouch's TouchPoint till system and you'll have instant internet access to current and archive surveillance footage, plus you will be able to display the audit roll from the same point in time.

### Plan & Pay on TouchOffice Web

A tool to schedule sales areas and staff breaks, plus it saves you up to 10% in staff costs.

Work out wages: Pay staff on your terms and ensure they are working only when you want them to.

Combine payroll data with accounting software.

Frees you from admin.

Manage staff easily with TouchOffice Web and you'll know your business is as cost effective as it can be.

Drawing information from ICRTouch's tested and proven TouchPoint till system, TouchOffice Web tells you which employees are working and how they've performed, hour on hour.
